

Edwin van Teijlingen

Edwin is Professor of Reproductive Health & joint director Centre for Midwifery, Maternal & Perinatal Health (CMMPH) at Bournemouth University in the UK. His background is in the social sciences. He has conducted over two decades of research into maternity care and midwifery in the UK and in Asia (Bangladesh, India & Nepal).

He has published widely on important aspects of maternal health, including both theoretical and practical aspects. At various UK universities he has successfully supervised over 25 PhD students to completion and examined nearly 35 PhD candidates, including some in Finland and Denmark.

He is a member of the NMC (Nursing-Midwifery Council) Midwifery Thought Leadership Group in the UK. He is also visiting professor at the University of Nottingham in the UK and two universities in Nepal.
